

Neocorp

CAPABILITY STATEMENT

Neocorp (New England Overseas Corporation) has been providing service driven, customer focused solutions for over 30 years from our 50,000 square foot manufacturing facility in Pawtucket, RI. Our trained workforce, high speed production technology, proprietary manufacturing capabilities, and continuous improvement efforts allow us to remain leaders in our industry.

Through our e-commerce division, Quality Nylon Rope (www.qualitynylonrope.com) we offer our high quality rope, cord, bungee/shock cord, utility tie downs and related products in diameters ranging from 1/8" to 3/4". Our online store allows us to fulfill your orders in a convenient, affordable and time saving manner, even for large quantity and custom orders.

- » Liberal freight incentives
- » 500+ miles of cord on hand
- » Help desk and R&D on site
- » Over 90% domestically made
- » Family Owned/Operated for over 30 years

PAST PERFORMANCE

Tinker Airforce Base, OK

QualityNylonRope.com provided Tinker Airforce base with over 5,000 feet of 1/4" red bungee/shock cord for their continuous improvement programs on base. Ordered online and shipped in two business days.

City Of Encinitas, CA

In need of a fast and non-obtrusive solution for spectator containment at a city parade, QualityNylonRope.com shipped out 7,000 feet of 1/4" cotton sash cord within two business days.

The customer was pleased and easily re-wound the product for use next year.

Stinger Ghaffarian Technologies (SGT) TX

A custom designed high- temperature draw cord was needed for their client's stow bags in less than 5 weeks. Neocorp co-designed, produced, packaged, labeled and shipped the item in less than 3 weeks. The customer has since re-ordered.

National Oceanic and Atmospheric Administration (NOAA) SC

Qualitynylonrope.com provided NOAA a 600 ft spool of 1/4" twisted nylon shipped in one business day.

Hanscom Air Force Base (AFB), MA

When this customer wanted to make their own custom bungee shock cord lengths with hooks the Qualitynylonrope.com solution was to provide Hanscom AFB with a DIY bungee kit offering all that they needed to do so, with free delivery.
